THE VACCINATION SOLUTION

Why all these measures and vaccinations when there is another way?

If the Swedish population managed to survive this 'dangerous pandemic' without taking any senseless measures, then this would also have been possible in our country. However, we would not have the economic damage and all the deaths caused by the government's draconian measures. This makes it clear that what is at stake is not the health of the citizens, but deliberately and consciously causing all this damage. It looks like that the right person with a fitting bad intention was put in power.

Through this poem, our prior Chancellor Angela Merkel expressed the following intention

★★★★★ Ein Gedicht von Angel Merkel
1967, veröffentlicht in der DDR-Kinderzeitschrift FRÖSI

3. Oktober 2017

Format: Taschenbuch

Ernst Thälmann, schreite du voran,
Ich lieb' den Sozialismus,
drum steh ich hier nun meinen Mann,
weil Revanchismus weg muss.
Schon lange will das rote Heer
den Feind eliminieren.

I

Ich brauch' hierfür kein Schießgewehr –
Ich werd' ihn infiltrieren!
Ich werde Chef der BRD,
– der Klassenfeind wird's hassen! –
und folg' dem Plan der SED,

Ernst Thälmann, go ahead,
I love socialism
that's why I'm standing here my man,
because revanchism has to go.

The red army has wanted for a long time
eliminate the enemy.
I don't need a gun for this -
I will infiltrate him!

I will be head of the BRD
- the class enemy will hate it! –
and follow the plan of the SED,
to let them go bankrupt!"

This is our wolf in sheep's clothing and as long as the German citizens do not recognize this, this country will continue to be led in a straight line towards its demise. If you do not believe the statements about the PCR test and the corona virus in the previous article, then listen and watch the explanations of Dr. Andrew Kaufman. In view of these facts, all the measures, as well as vaccination, are downright absurd and destructive.

There would even be very inexpensive measures to make this test negative, e.g. B. by taking hydroxychloroquine (HCQ) with zinc and vitamin C, CDL or specific UV radiation. Assuming there had really been a pandemic and the German government, simply because they were uninformed about this PCR test, assumed that it could prove an infection, what would be a reasonable course of action to solve the problem? You would test those who show symptoms with it. Then anyone showing symptoms and testing positive would be treated with the appropriate one of the three procedures mentioned above, and in no time everyone who had previously tested would have tested negative. That would be a sensible course of action, even if one fell victim to the misinformation that this test could detect an infection. In this way one could have avoided the whole draconian madness of gradually ruining this country. But since there is no pandemic at all, it would have been prudent to just treat those who are showing symptoms with the right method - just the normal routine, like all those years before with flu outbreaks. So if we hadn't had any government interference in this situation, we would be doing a lot better today.

But the government is not concerned with handling something. Instead, it is about creating a problem and making it bigger in the eyes of the citizens until the last vaccination critic collapses and would rather be vaccinated than listen to this nonsense spouted by our media and elected representatives. This government is truly zero in terms of constructive solutions and a VACUUM FOR TROUBLE!

The government's formula (problem, reaction, solution) approach to creating a problem, allowing the media to dramatize it long enough to elicit a popular cry for help, which is then crowned with a pre-determined solution long been old hat for such 'people's representatives'.

In this case, however, we are dealing with a no problem that has been made a 'problem'. This is already the advanced version of creating a reaction to a no problem by endlessly repeating blatant lies.

But unfortunately not every single citizen can be forced to be vaccinated because this would violate **LEGAL FACTS AND INTERNATIONAL HUMAN RIGHTS**.

Therefore, next, a debate is launched about whether people who do not want to be vaccinated should be restricted in their freedoms and discriminated against.

Oh, how controversial is that! Once again we are dealing with a made-up 'problem', as this has long since been regulated under international law. Now, however, this issue needs to be addressed so that people are concerned about the harm they might face if they don't get vaccinated.

This is just the next psychological trick of how our devious government is driving the preordained solution of forcing vaccination through social pressure.

The only omission on the part of the government in this no-problem situation was that the government had not previously perverted international law. Gone stupid!

Therefore, the 'problem' must first be created and solved on a societal level. The solution is simple. The irrelevant statistics of a worsening dire situation (a non-problem situation becomes a 'problem' - lie again) can again be quickly created and broadcast.

Why are the measures so important?

So that the country and the citizens suffer economic and health damage to create dependency.

- a) Why is vaccination so important?
- b) And why do the elderly have to be vaccinated first?

Let's hear from an eyewitness to the Spanish flu, Eleanor McBean.

I WAS AN ON-THE-SPOT OBSERVER OF THE 1918 INFLUENZA EPIDEMIC

"All the doctors and people who were living at the time of the 1918 Spanish Influenza epidemic say it was the most terrible disease the world has ever had. Strong men, hale and hearty, one day would be dead the next. The disease had the characteristics of the black death added to typhoid, diphtheria, pneumonia, smallpox, paralysis and all the diseases the people had been vaccinated with immediately following World War 1. Practically the entire population had been injected "seeded" with a dozen or more diseases — or toxic serums. When all those doctor-made diseases started breaking out all at once it was tragic.

That pandemic dragged on for two years, kept alive with the addition of more poison drugs administered by the doctors who tried to suppress the symptoms. As far as I could find out, the flu hit only the vaccinated. Those who had refused the shots escaped the flu. My family had refused all the vaccinations so we remained well all the time. We knew from the health teachings of Graham, Trail, Tilden and others, that people cannot contaminate the body with poisons without causing disease.

When the flu was at its peak, all the stores were closed as well as the schools, businesses — even the hospital, as the doctors and nurses had been vaccinated too and were down with the flu. No one was on the streets. It was like a ghost town. We seemed to be the only family which didn't get the flu; so my parents went from house to house doing what they could to look after the sick, as it was impossible to get a doctor then. If it were possible for germs, bacteria, virus, or bacilli to cause disease, they had plenty of opportunity to attack my parents when they were spending many hours a day in the sick rooms. But they didn't get the flu and they didn't bring any germs home to attack us children and cause anything. None of our family had the flu — not even a sniffle — and it was in the winter with deep snow on the ground.

When I see people cringe when someone near them sneezes or coughs, I wonder how long it will take them to find out that they can't catch it — whatever it is. The only way they can get a disease is to develop it themselves by wrong eating, drinking, smoking or doing some other things which cause internal poisoning and lowered vitality. All diseases are preventable and most of them are cureable with the right methods, not known to medical doctors, and not all drugless doctors know them either.

It has been said that the 1918 flu epidemic killed 20,000,000 people throughout the world. But, actually, the doctors killed them with their crude and deadly treatments and drugs. This is a harsh accusation but it is nevertheless true, judging by the success of the drugless doctors in comparison with that of the medical doctors.

While the medical men and medical hospitals were losing 33% of their flu cases, the non-medical hospitals such as BATTLE CREEK, KELLOGG and MACFADDEN'S HEALTH-RESTORIUM were getting almost 100% healings with their water cure, baths, enemas, etc., fasting and certain other simple healing methods, followed by carefully worked out diets of natural foods. One health doctor didn't lose a patient in eight years. The very successful health treatment of one of those drugless doctors who didn't lose any patients will be given in the other part of this book, titled VACCINATION CONDEMNED, to be published a little later.

If the medical doctors had been as advanced as the drugless doctors, there would not have been those 20 million deaths from the medical flu treatment.

There was seven times more disease among the vaccinated soldiers than among the unvaccinated civilians, and the diseases were those they had been vaccinated against. One soldier who had returned from overseas in 1912 told me that the army hospitals were filled with cases of *infantile paralysis* and he wondered why grown men should have an infant disease. Now, we know that paralysis is a common after-effect of vaccine poisoning. Those at home didn't get the paralysis until after the world-wide vaccination campaign in 1918."

Purpose a: * Genocide for population reduction.

*Hidden control of the remaining population through genetic fusion with nanotechnology to connect with ID 2020 and AI using 5G/6G & Blockchain technology.

Purpose b: * Genocide of the elderly as a solution to the pension fiasco.

* Get rid of annoying eyewitnesses.

Probably the best trained specialist in the field of vaccinations, Dr. Sherri Tenpenny says, 'You gotta watch what's coming through that needle!' In this interview, translated into German, you will get an overview of its ingredients and their exact modes of action.

The ingredients of the vaccines from Pfizer/BioNTech (BNT162b2), Moderna (mRNA-1273), AstraZeneca (AZD1222) (ChAdOx1 nCoV-19) in comparison.
